The park covers an area of 137 square kilometres and was established in 1960. It has three distinct zones that contribute park variety and beauty, Ngurdoto Crater, the Momella lakes and Mount Meru. The vegetation and wildlife found in the park are determined by altitude and geography of the different areas.

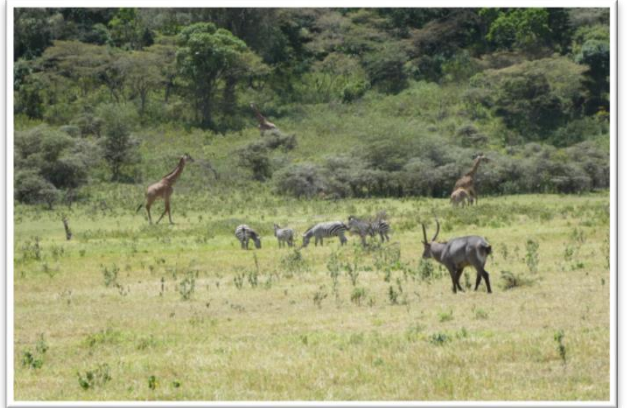

We will pick you up from your hotel after breakfast. It takes about 40 minutes from Arusha to the Ngongongare Gate – Arusha NP.

The game drives are in the eastern part of the park. From the Mikundu Point you will have a splendid view into the Ngurdoto Crater.

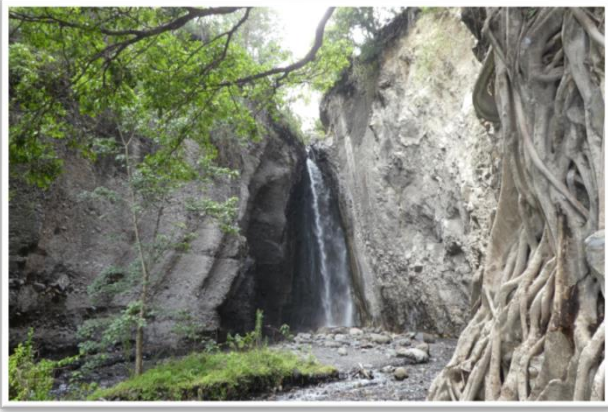

We continue the game drive to the Momella Lakes where we will have picnic.
